

Construction, industry & infrastructure

Always a solution!

Always a solution

CARU Containers operates as the European market leader in sales, rentals and leasing of new and used containers. Our customers can be found in an assortment of industries, like shipping, off-shore, logistics, construction, automotive, oil- and chemical industry, general industry, governments, municipalities, army, traders and rental companies.

Container Solutions for construction and infrastructure

In the construction business, there is often need for safe equipment storage, flexible office space, temporary dressing rooms, canteens and extra workshops. We offer a large number of solutions in these area's. Due to our vast experience with companies in civil, marine and utility maintenance, we are able to easily adapt to all our client's needs throughout these sectors.

CARU Containers:

- Sells new and used containers, if needed with buyback guarantee
- Delivers rental & lease solutions for both short and long term commitments
- Offers lease-purchase possibilities
- Modifies and rebuilds containers for custom made purposes, such as rebuilt insulated containers for storage with workbench, scaffolding and light packages.
- Offers maintenance & repair services on location to uphold necessary logistical container requirements

Moreover, we are specialized in modifying containers to tailor made container solutions in our such as workshops, with options for painting, light packages, scaffolding, locks and any specific requirements for rebuild

CARU Containers: Always a solution!

"The shortest way from A to B is always under construction"

- Leo Aikman
